Data Sheet 5.62-9/1¹⁾

Further Extensions of HiRES Advanced, Type HiRES Advanced ...

Application

The HiRES Advanced main software can be amended by further extension modules in addition to the functionality of the main software module and separately described packages.

Package descriptions:

Package name	Package functionality
HiRES Advanced Interfaces	Provides a direct interface to Microsoft Excel and Microsoft Word. It is used for the export of measuring results (variables, bitmaps from views) for further processing and test protocol generation.
HiRES Advanced Recording	Offers functions for automated long time recording and data storage.

¹⁾ The prior version of the Data Sheet was 5.52-9/1.
